

SOME PEACE OF MIND C Gates key A capo 2 4/4 s=sus

G C G C

V1. I go from room to room, through every closet
Looking for every bit of baggage I can find
Bring out each one, put them out the door
And choose which ones to leave out there for some peace of mind

V2. I turn on the light, and check every corner
Make sure I don't leave anything behind
Lots of little pieces from a long time ago
It ain't easy but I have to clear them out for some peace of mind

CH: This time it's going to be different
This time I get what I need
Lighten the load I've been lugging around all my life
I'll be lighter with a little peace of mind
I'll be lighter with some peace of mind
BR: Where I come from you don't talk about your baggage
It might be an adage that you use around your family
But the house is still standing
Though the bags are less demanding
When I clear them out it sets me free

V3. Turn out the lights, the rooms are all empty
I brought the baggage out by being loving and kind
Leave what you don't need now, learn to let it go
It's tough work but it's well worth it for some peace of mind

CH: This time it's going to be different...

I'll be lighter with a little peace of mind
I'll be lighter with some peace of mind
Some peace of mind
